Question and Answer Booklet

Instructions:

- 1. Fill in your password on the front page of this booklet.
- 2. Fill in your password on top of the pages in this booklet.
- 3. This test consists of 7 sections.
- 4. The maximum total mark is 70.
- 5. The mark for each section is given at the beginning of the section.
- 6. Give only the required number of answers (reasons, examples, et cetera). For instance, if the question asks for 2 reasons and you give more than 2, only the first 2 reasons will be marked.
- 7. Answer all questions in the spaces provided in this booklet.
- 8. The Source Booklet contains the maps and figures referred to in the questions.
- 9. You may use a calculator during the test.
- 10. Time: 180 minutes. Calculate your time efficiently.

Good luck!

Section 1 Autonomy (8 points)

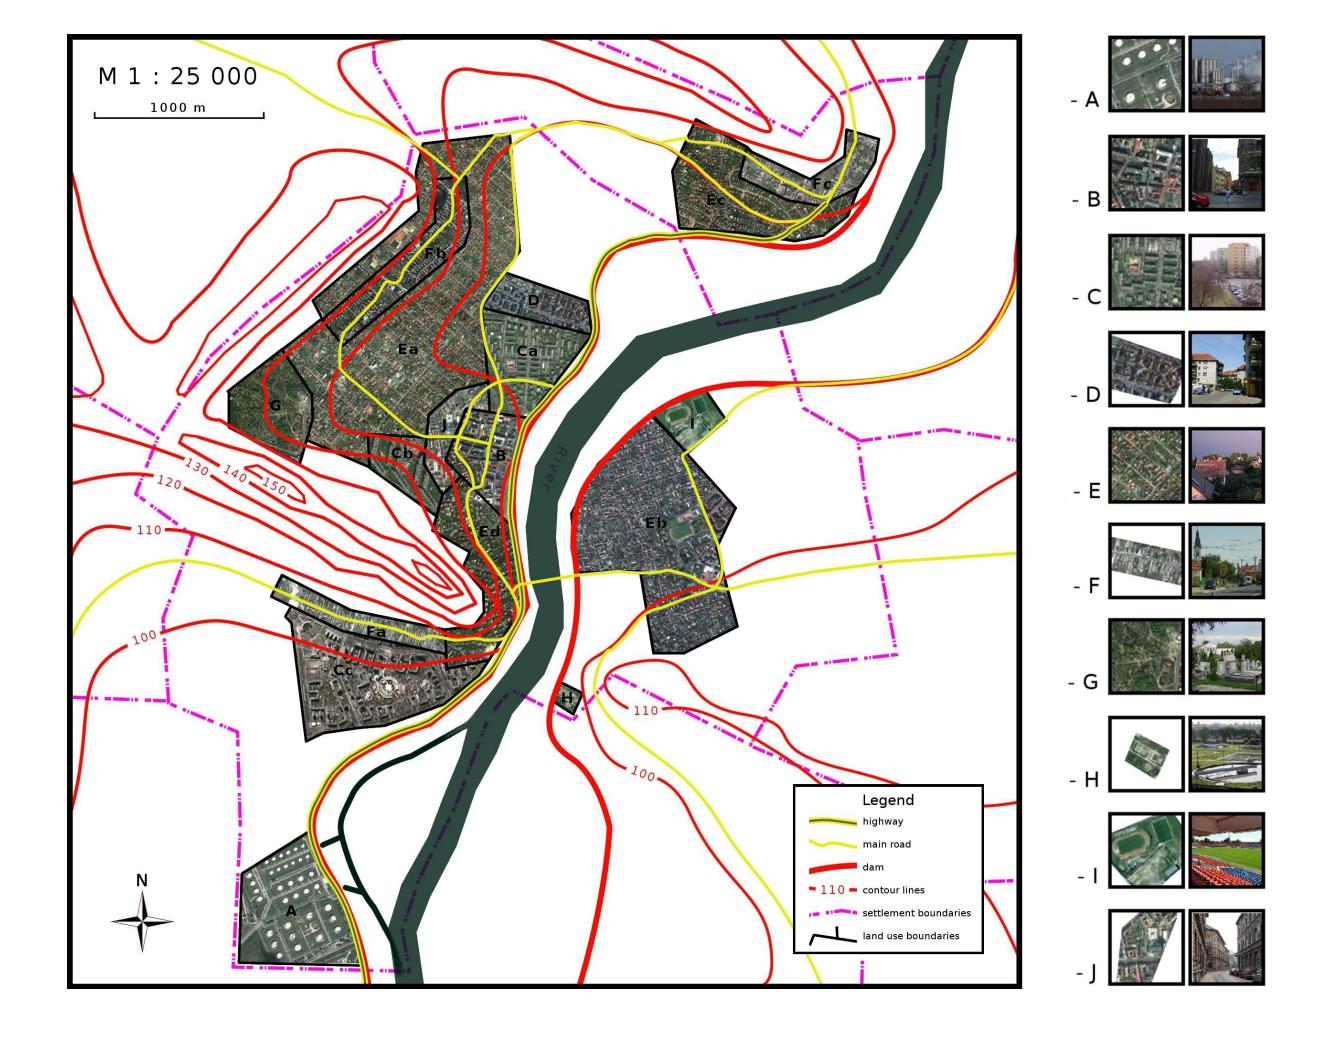

1) Name the four co	onstituent coun	tries of the United	l Kingdom. l	Mark them on	the map.
a)	b)	c)		d)	
Name those two au Mark them on the r		munities in Spain,	which woul	d like to reach	larger autonomy.
e)		f)			<u></u>
2) Study Source 1 is	n the Source Bo	oklet.			
What do the picture	es depict? Which	is the odd one ou	it? Name the	e reason.	
Picture 1		Pic	ture 2		
Picture 3		Pic	ture 4		

The odd one out is Picture _____, because __

3) Give a brief tourist summary of the north most country of UK (8-10 sentences). Build yo
answer upon a physical geographical basis.
4) The youngest country on the Balkan Peninsula is Kosovo. It became independent in 200 Many countries have declared its secession, but there are several others which have not accept Kosovo as a country. The United Kingdom and Belgium were among the first who announce their recognition. What could be the negative effects of their above mentioned statemer concerning to their domestic politics? Name at least one consequence each.
5) Give a brief definition of autonomy.

Section 2 'Rivertown' (23 points) 1) Rivertown is an imaginary town. It is	located 46°N, 20°E. Match the satellite images and
pictures (see Page 6) with land use patterns	
CBD	Residential zones
Garden city/suburban areas	Slums
Waste-water treatment plant	Sport and leisure facilities
Cemetery	Rural residential areas
Industrial zones	Gated communities
	ypes could be depicted to the blank areas? Name four
here and mark them on the map with the fo	
K -	
L -	N
3) Study Source 2A in the Source Booklet.	
a) Name the climate zone of the city.	
b) On the basis of the data provided, what	type of river is being formed nowadays?
c) Is it necessary to raise the height of dams	s in the coming decade?
d) Shade with blue colour those areas on	the map (Page 6) which would be flooded in case of

+892 cm peak flood. (The 0 cm water level is equal with the elevation of 91.6 m at Rivertown.)

b) Name two possible economic activities which can be prosperous because of the loca resources. 1	a) How was the area formed? Give a brief description; build your answer upon the geolog	ica
5) Study Source 2C in the Source Booklet. a) Give the letter of the districts, where the population density is higher than 60 people per km² (this is the required figure for tramway – see later). b) What is the connection between the distance from CBD and number of cars per household? 6) Nowadays the development of public transport is a major issue in the world; especially greet types, such as tramway. How do the followings influence a tramway development? Write on positive and one negative relation each. Type of land use:	profile and geomorphology (5-7 sentences).	
5) Study Source 2C in the Source Booklet. a) Give the letter of the districts, where the population density is higher than 60 people per km² (this is the required figure for tramway – see later). b) What is the connection between the distance from CBD and number of cars per household? 6) Nowadays the development of public transport is a major issue in the world; especially green types, such as tramway. How do the followings influence a tramway development? Write one positive and one negative relation each. Type of land use:		
5) Study Source 2C in the Source Booklet. a) Give the letter of the districts, where the population density is higher than 60 people per km² (this is the required figure for tramway – see later). b) What is the connection between the distance from CBD and number of cars per household? 6) Nowadays the development of public transport is a major issue in the world; especially green types, such as tramway. How do the followings influence a tramway development? Write one positive and one negative relation each. Type of land use:		
5) Study Source 2C in the Source Booklet. a) Give the letter of the districts, where the population density is higher than 60 people per km² (this is the required figure for tramway – see later). b) What is the connection between the distance from CBD and number of cars per household? 6) Nowadays the development of public transport is a major issue in the world; especially greer types, such as tramway. How do the followings influence a tramway development? Write one positive and one negative relation each. Type of land use:		
5) Study Source 2C in the Source Booklet. a) Give the letter of the districts, where the population density is higher than 60 people per km² (this is the required figure for tramway – see later). b) What is the connection between the distance from CBD and number of cars per household? 6) Nowadays the development of public transport is a major issue in the world; especially greer types, such as tramway. How do the followings influence a tramway development? Write one positive and one negative relation each. Type of land use:

Section 5 (10 points)
Describe briefly the physical and human geography of Somalia. (You can earn some credits even if you cannot list any concrete facts or figures about the country. Draw some correct conclusions from your general knowledge.)

Section 6 Global issues (8 points)
1) Give the definition of the followings:
Overpopulation
Glocalization
Urbanization
2) Why urbanization is a global issue? (5-7 sentences)

	Password:
3) Name two other global problems:	
, 8 1	
4	

Section 7 Quiz (6 points)	
Choose the correct answer. Mark your choice wit correct.	th an X in the right box. Only one answer each is
1) Which climate has the following characteristic rainfall is 400-800 mm, unbalanced regime of wa	s: the annual temperature is 20-27-°C, the annual tercourse.
Humid continental	☐ Tropical savannah
Humid subtropical	Mediterranean
2) River Rhine does NOT flow past in this count	ery.
Liechtenstein	☐ The Netherlands
Switzerland	Luxembourg
3) Which is true for the Intertropical Convergence	ce Zone?
It is an area of high atmospheric	☐ It lies along the Tropic of Cancer.
pressure.	☐ It causes calm, predictable weather.
It is an area of low atmospheric pressure.	
4) The Cook Strait is situated between:	
Australia and Tasmania	☐ The North and South Islands (New
Australia and New Guinea	Zeeland)
	Malaysia and Sumatra
5) Where can we find the highest proportion of l	Roman Catholics?
Spain	France
The Netherlands	Serbia
6) Which one does NOT belong to the Variscan	Belt?
Massif Central	Devon
Ardennes	Scotland
7) Which one of the followings is an operating air	rline?
Swissair	Malév
Qantas	Pan American

☐ Mt. St. Helens ☐ Mauna Loa ☐ Krakatau ☐ Cotopaxi 9) Which scale is used for the empirical measurement of wind speed?		
9) Which scale is used for the empirical measurement of wind speed?		
9) Which scale is used for the empirical measurement of wind speed?		
☐ Munsell system ☐ Mohs scale		
☐ Richter scale ☐ Beaufort scale
