

**1) Prepare a presentation on the following topic:
The reasons of the decreasing global fish stock and its physical and social consequences**

**1) Give a brief summary about the following topic:
The genesis of fault-block mountains and their economic importance in Europe**

**1) Analyse the following picture(s)/Map(s)/figure(s):
Urban Decay**

**2) Prepare a presentation on the following topic:
Ethnic conflicts in Africa**

**2) Give a brief summary about the following topic:
The genesis and characteristics of fluvial sandbars, shoals and gravel bars**

**2) Analyse the following picture(s)/Map(s)/figure(s):
Changing transport network patterns from Western Europe to Eastern Europe**

**3) Prepare a presentation on the following topic:
UNESCO World Heritages in Southeast Asia. Their importance in global tourism**

**3) Give a brief summary about the following topic:
Cratons of the world and their economic relevance**

**3) Analyse the following picture(s)/Map(s)/figure(s):
Badlands and earth pyramid – work of erosion**

**4) Prepare a presentation on the following topic:
Economic integrations beyond Europe**

**4) Give a brief summary about the following topic:
Current trends in global hydrocarbon extraction and utilization.**

**4) Analyse the following picture(s)/Map(s)/figure(s):
Sea level rise and global warming vs endangered areas**

**5) Prepare a presentation on the following topic:
Brain drain vs. Brain Gain**

**5) Give a brief summary about the following topic:
Similarities and differences between the Variscan and Caledonian orogenies**

**5) Analyse the following picture(s)/Map(s)/figure(s):
Excessive mining activity and environmental degradation**

**6) Prepare a presentation on the following topic:
Impacts of physical and socio-economic factors on karst aquifers**

**6) Give a brief summary about the following topic:
The process of air pollution, the types of smog**

**6) Analyse the following picture(s)/Map(s)/figure(s):
Strategies to survive the desert**

**7) Prepare a presentation on the following topic:
Desertification: prevention and management**

**7) Give a brief summary about the following topic
The possible economic impact of the Russian – Ukrainian crisis**

**7) Analyse the following picture(s)/Map(s)/figure(s):
The Wilson cycle**

**8) Prepare a presentation on the following topic:
Volcanism in and along the Caribbean Plate**

**8) Give a brief summary about the following topic:
Viticulture and viniculture**

**8) Analyse the following picture(s)/Map(s)/figure(s):
Geographical concerns in planning**

**9) Prepare a presentation on the following topic:
The natural resources of the Balkan Peninsula**

**9) Give a brief summary about the following topic:
Population issues in China and India**

**9) Analyse the following picture(s)/Map(s)/figure(s):
Explain the technique used on this map!**

**10) Prepare a presentation on the following topic:
Fluvial accumulation processes**

**10) Give a brief summary about the following topic:
The presence of the Islam in the world, especially in Europe**

**10) Analyse the following picture(s)/Map(s)/figure(s):
Urban overcrowding and its solutions**

**11) Prepare a presentation on the following topic:
Global climate: the polar vortex, the jet stream and extreme winters**

**11) Give a brief summary about the following topic:
Global networks of telecommunication**

**11) Analyse the following picture(s)/Map(s)/figure(s):
Brown field renewal**
